OROZCO IN VERY

CLOSE QUARTERS

Juarez, Aug. 23.—Caught as a mouse in a trap, although the trap is 100 miles wide and 200 miles long, is Pascual Orozco, commander in chief of the rebel forces in the North. This is declared by advices received here by Gen. Joaquin Tellez, federal commander of this zone. The official announcement is verified by railway representatives and other sources.

Orozco now has only about 600 men. He is surrounded by federal forces aggregating 10,000 that are spread out from the city of Chihuahua to the south to the border at this point and along the Mexican Central

running directly north to the border and the Mexico Northwestern, which runs from Chihuahua City west and north of Juarez.

Orozco left Villa Ahumada, a station midway between Chihuahua and Juarez, only yesterday. Three times he attempted to move away from the railway, only to have his scouts encounter some federal force. On his final departure yesterday he burned his trains, forty-five cars; destroyed three locomotives and mounting his men, rode away to the northwest. The rebels are suffering greatly for want of food for themselves and horses.

Moving across this same territory, Gen. Antonio Rabago, with 2,000 federal cavalry and 1,500 additional troops, went west from the city of Chihuahua yesterday. This morning 400 troops were dispatched from Juarez over the railway for the southwest. This, it is believed here, will insure the capture of Orozco.

Coincident with the last departure of Orozco for the southwest, the main Northwestern Railway was cut between Pearsh and Cumbeo. Two hundred rebels thus attempted to make a way for their commander to escape into the State of Sonora, where the greater part of the rebel army is moving toward the west coast with the evident intention of taking a seaport.

But the communication was cut only temporarily. Seventy-five federal cavalrymen were sent out from Pearsh and met the rebels, early today near Cumbeo. The insurgents were routed, losing three killed and twenty-six captured, besides suffering the loss of their ammunition and provision train. The road has been repaired and travel resumed.

T. O. CULLINS OFFERS HIS SERVICES FOR FAIR

T. O. Cullins has tendered his services in handling the exhibit of Pontotoc county at the state fair. Some one must be in charge of the exhibit, answer questions and boost generally. Mr. Cullins asks nothing for his services, except the payment of his actual expenses. He is not by any means an amateur in this capacity, having for several years performed similar work for Shelby county, Tennessee, at the tri-state fair held at Memphis.

ARCHBOLD EXPLAINS DONATION

S&LS REPUBLICANS SOLICITED IT AND WANTED MORE—PROSECUTIONS FOLLOWED.

Washington, Aug. 23.—John D. Archbold today told the senate committee investigating campaign funds that the Standard Oil company's \$125,000 contribution to the Republican war chest of 1904 was made upon assurances from Cornelius N. Bliss that the contribution was acceptable to Colonel Roosevelt and that further contributions would be acceptable.

"I told Mr. Bliss we did not want to make the contribution unless it was to be gratefully received," he said. "Mr. Bliss told us of Mr. Roosevelt's attitude toward business and said he believed Mr. Roosevelt would be a fair and conservative man when it came to the test. Mr. Bliss urged that the policies of the republican party were the safest for business. We decided that our interests as a business organization lay on the republican side and we decided to make this contribution."

Mr. Archbold explained that \$100,000 went to the republican national committee and that \$25,000 was given to Senator Penrose for the republican state committee. The \$25,000 given to Mr. Penrose he said, "was a political contribution and not a payment for services in public or private life."

Then when the late Mr. Bliss came to the Standard Oil company for more money—about \$150,000—Mr. Archbold said the board of directors refused to contribute further. He quoted Mr. Bliss as saying:

"I speak to you personally; I think you had better make this contribution. If you don't somebody else will."

Later Mr. Archbold said when the bureau of corporations began making adverse reports on the Standard Oil company, Mr. Bliss admitted that the government's attacks were unjust but said he had no influence with President Roosevelt.

Mr. Roosevelt unflinchingly approved these attacks," declared Mr. Archbold, "without investigation or the slightest knowledge of the facts. Those reports of Garfield and Smith were the work of mere puppets, who jumped when Roosevelt pulled the strings."

When the Standard Oil magnate was asked if he thought the company's refusal to contribute further was the cause of the "unjust" government attacks he bit his lip and said "Well, I don't know."

INITIATIVE AND REFERENDUM KNOCKED OUT IN COLORADO

Denver, Colo., Aug. 23.—The initiative and referendum law in Colorado was declared void today in a test case brought to enjoin the submission to the voters this fall of a long list of important initiated bills. Unless the decision, which was given by Judge C. Riddell in the District Court for this district, is overruled by the supreme court, it will knock out some of the most important legislation passed during the last two years. Fifteen days are granted for appeal. Judge Riddell held that the constitutional amendment embodying the law which was adopted in November, 1910, by a majority of 60,443 in a total vote of 117,839, had not been properly submitted to the people, and issued a writ of mandamus ordering that it be resubmitted this fall. If the decision stands it will prevent the submission this fall of bills for state-wide prohibition, recall of court decisions, recall of elective officers, including judges, for a public utilities commission, extension of civil service, headless ballot, eight hour law for women, good roads and "mothers' compensation," the latter providing a subsidy for each child born.

PONTOTOC DEMOCRATS ASSEMBLE

COUNTY CONVENTION ELECTS DELEGATES TO STATE CONVENTION.

The democrats of Pontotoc county held their county convention this afternoon and was a very tranquil affair throughout. C. J. Moore of Roff, was elected temporary chairman and B. M. Bobbitt, secretary.

The chair appointed Jno. Thompson of Hart, C. T. Angel of Ada, and Dr. Truax of Frisco, as a committee on credentials. Byron Norrell, Dr. C. M. Means and W. H. Hammond were appointed as a committee on permanent organization. Its recommendation that the temporary organization be made permanent was adopted. T. D. McKeown, Wm. Felter and W. T. Cox were appointed as a committee on resolutions.

The report of the committee on resolutions endorsed the Baltimore platform and pledged the support of the ticket, national, state and county. The work of the democratic members of congress was approved.

The candidacy of Hon. John P. Crawford for the speakership was enthusiastically endorsed. The full report will be published Monday.

R. M. Roddie offered resolution endorsing the county nominees and it was unanimously adopted.

Dr. M. W. Ligon, Leslie Maxey and Wm. Felter were appointed as a nominating committee. While the committee was working on its report, Judge T. D. McKeown was invited to address the convention.

The list of delegates selected will be published Monday.

COUNTY COMMITTEE HOLDS MEETING

The newly elected democratic county committee held its first meeting this afternoon and organized by unanimously electing Dr. C. M. Means of Allen, chairman and T. W. Robison, secretary. The new officers were installed and a vote of thanks extended to former chairman Norrell.

A resolution endorsing Hon. John P. Crawford for the speakership of the next house was introduced and carried unanimously and Mr. Crawford in a few words expressed his appreciation of the vote.

HOW THE FRISCO WILL HANDLE CAR SHORTAGE

St. Louis, Mo., Aug. 24.—The heavy crop movement, with its consequent demands for an unusual number of cars, has put the officials of the Frisco on their toes to supply equipment as rapidly as possible to the patrons of the company.

In order that this may be accomplished, daily and weekly advices to the agents, calling their attention to conditions as they develop, will be sent out by the transportation department.

In these advices the average detention of equipment will be shown, and it is hoped the agents will impress upon the shippers the need of promptly loading and unloading cars.

If the time of detention of equipment is reduced by half, it means that practically twice as many cars will be available.

Therefore, the different departments will keep the agents posted, not only as to the number of hours equipment was detained, but as to the number of cars loaded each day and available each day, in order that they may co-operate with the shippers in getting best possible service.

The Frisco has purchased thirty thousand tons of new rail, of which more than twenty-five thousand tons is 90-pound rail, the remainder being 85-pound rail. As fast as possible this rail will be laid.

Attention Masons. Ada Lodge A. F. & A. M. will meet in regular monthly communication this evening at 8 o'clock.

NEWS FORECAST FOR THE COMING WEEK

Washington, D. C., Aug. 24.—Colonel Roosevelt plans to devote several days of the coming week to speech-making in Vermont, where the state election is to be held Sept. 3. Governor Wilson is to go to Williams Grove Pa., on Thursday, to speak before a gathering of farmers. Upon his return to Sea Girt he will receive several delegations of visitors and probably will make one or more porch speeches. President Taft has a provisional engagement to attend the Ohio centennial celebration at Columbus, but he has made it known that any address he might deliver there will be of a non-political character.

The general primaries in South Carolina and Michigan will be the leading events of the week in the domain of state politics. The serious charges recently made against Governor Blease of South Carolina has attracted wide attention to his contest for re-nomination against Judge Ira B. Jones. The South Carolina primaries also will decide whether Senator Tillman is to have another term. In the Michigan primaries the republicans, democrats and progressives will select candidates for governor, lieutenant governor, United States senator, representatives in congress and minor officers.

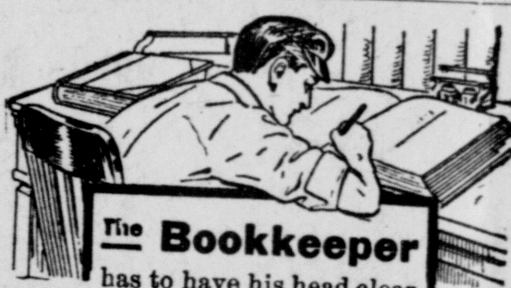

Under the new Kansas primary law the republicans and democrats of that state will hold their party "councils" in Topeka on Tuesday to formulate platforms. In Oklahoma the democrats will hold a state convention to ratify the nominees of the recent primary and adopt a platform. A similar gathering of Georgia democrats will be held at Macon. The contest for the seat of United States Senator Francis E. Warren is the chief feature of the state primaries to be held in Wyoming Friday. Montana democrats will meet in Great Falls Thursday to select candidates for governor and other state officers, United States senator, representatives in congress and four presidential electors.

At a special election to be held Wednesday the voters of New Orleans will decide whether or not the commission plan of government shall be adopted for the city.

The fiftieth anniversary of the second battle of Bull Run will be observed Thursday with a reunion of Federal and Confederate veterans near the battlefield.

Beginning Monday and continuing for nearly two weeks, the centennial of the selection of Columbus as Ohio's permanent capital will be celebrated in that city.

Important conventions of the week will include the annual meeting of the

All Sores Are Not Cancerous

While all Old Sores are not cancerous in their nature, every slow healing ulcer shows a degenerated condition of the blood. Virulent impurities in the circulation produce angry, discharging ulcers, while milder and more inert germs are usually manifested in the form of indolent sores or dry, scabby places. Efforts to heal an old sore with external applications always result in failure because such treatment does not reach the blood, and the ulcer will continue to eat deeper into the surrounding flesh as long as a polluted circulation discharges its impurities into it. S.S.S. heals old sores of every nature by purifying the blood. It goes to the fountain-head of the trouble and drives out the germ-producing poisons and morbid impurities which prevent the place from healing. Then a stream of rich, nourishing blood, which S. S. S. creates, causes a perfect and natural knitting together of all flesh fibres, making a thorough and permanent cure. The sore does not "come back" when S. S. S. has made a cure, because its source has been destroyed. Book on sores and ulcers and medical advice free.

Oklahoma Colleges Are Best.

We know that many ambitious parents have sent their boys and girls out of the state up to this time because of the influence of some teacher in the older states, or reverence felt for the college of their boyhood or girlhood days. We believe that Oklahoma schools and colleges are the best for Oklahoma folks. When Secretary Coburn of Kansas visited this state last year he inspected the A. & M. college at Stillwater and declared "that it was second to none" and Mr. Coburn knows. The District Agricultural schools associated with the college, and the other state institutions of higher learning, have employed the best talent to be found in the United States because the wide-awake and progressive instructors have looked to Oklahoma as a rich and promising field.

Our own state system of science and industrial education is at the very front as to general plan, methods and men. President J. H. Connell of the A. & M. College is authority for the statement that the graduates of that college are able to command salaries

immediately upon receiving their diplomas equal to the income of graduates in law or medicine from the best universities after four years of struggle and experience. We advise that boys and girls who are graduates of the eighth grade or from the high school, and who desire a higher education in engineering, agriculture, domestic science, teachers' normal work, or a commercial course, write at once to the A. & M. College at Stillwater for the catalog, since the session begins Monday, September 2.

TASTE, SMELL AND HEARING RESTORED

A Simple, Harmless Remedy Quickly
Relieves Catarrhal Deafness.

The thousands who suffer the miseries of colds and catarrh and claim they have never found a cure can get instant relief by simply anointing the nostrils with Ely's Cream Balm. Unlike internal mixtures which upset the stomach, or strong snuffs which only aggravate the trouble, this cleansing, healing, antiseptic balm instantly reaches the seat of the trouble, stops the nasty discharge, clears the nose, head and throat and brings back the sense of taste, smell and hearing. More than this, it strengthens the weakened and diseased tissues, thus protecting you against a return of the trouble.

Nasal catarrh is an inflammation of the membrane lining the air passages, and cannot be reached by mixtures taken into the stomach, nor can it be cured by snuffs and powders which only cause additional irritation. Don't waste time on them. Get a 50-cent bottle of Ely's Cream Balm from your druggist, and after using it for a day you will wish you had tried it sooner. Special agents, Gwin & Mays Drug Company.

Privileges for Sale.

All privileges for stands and amusements at the Confederate reunion will be sold to some one man, the highest bidder. The award will be made Thursday, August 29, at 2 p. m. All bids should be filed with J. W. Davis, dtf

IMPORTANCE OF HEALTHY KIDNEYS Ada Readers Should Learn to Keep the Kidneys Well.

The kidneys have a big work to do. All the blood in the body is coursing through the kidneys constantly to be freed of poisonous matter. It is a heavy enough task when the kidneys are well, but a cold, chill, fever, or some thoughtless exposure is likely to irritate, inflame and congest the work.

Then the aching begins, and is usually accompanied by some irregularity of the urine—too frequent passages, sediment or retention. Thousands testify to the wonderful merit of Doan's Kidney Pills, a remedy for the kidneys only, that has been used in kidney troubles 75 years. You will make no mistake in following this Ada citizen's advice.

J. W. Bowling, 112 Broadway, Ada, Oklahoma, says: "I found the use of Doan's Kidney Pills very beneficial when my kidneys were weak and I had a backache. I willingly recommend this remedy to any one having backache or kidney trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo New York, sole agents for the United States.

CONFERENCE COMMITTEE AGREES ON INDIAN BILL

Washington, Aug. 22.—In an exciting session that lasted several hours and one marked by much bitterness, the House and the senate conferees on the Indian appropriation bill finally agreed to a report that embodied concessions by both parties to the conference. There were several lively clashes and hot words between Representatives Stephens of Texas and Senator Carter of Kansas on the other. The settlement of the Indian agency question was in the nature of a dog fall. There is no appropriation for Indian agents for the Five Civilized Tribes, and no authority for the employment of Indian agents, but there is an increase of \$26,000 over the original bill for the administration of the affairs of the Five Civilized Tribes, and the conferees fully expect that this increase will be utilized for such Indian agents as will be found to be imperatively necessary. Thus \$75,000 is lopped off from the pay roll for Indian agents, and it is believed that unnecessary agents will be abolished.

The item for the payment of the Mexican Kickapoos was a compromise in the interests of the Indians in this manner:

After Mr. Bentley, the former agent of the Kickapoos, signed a declaration in writing stating that he asserts no right or ownership in the Kickapoo lands in Mexico, which are recorded in his name in trust, the conferees agreed to pay over on a receipt signed by a majority of the Kickapoos the sum of \$15,000 with which to pay their taxes and certain current debts. The bill originally provided for pay over to the Kickapoo Council, which is said to be controlled by Bentley, the sum of \$41,000.

The Apache item was settled by authorizing the war and interior departments to expend \$250,000 for land on which to settle the Apache prisoners at Fort Sill, who are to be freed from captivity.

The conferees cut from 20 to 10 the percentage which is to be expended in the collection of the tribal revenues of the Indians in Oklahoma. The item of \$35,000 for sewers in the Platt National Park and the item of \$300,000 for schools in the Indian country of Oklahoma remain in the bill. The senate adopted the conference report late this afternoon and the House expected to do the same tomorrow.

CHAPTER XVI.

In Which Ebenezer Capen Is Surprised.

Before sunset that afternoon the San Jose was anchored behind the point by the inlet. The fishing boats changed moorings and moved farther up, for not a single one of their owners would trust himself within a hundred yards of the stricken brigantine.

The largest of the beach shanties, one which stood by itself a quarter of a mile from the light, was hurriedly prepared for use as a pesthouse and the sick sailor was carried there on an improvised stretcher. Dr. Parker and Ellery lifted him from his berth and, assisted by old Ebenezer Capen, got him up to the deck and lowered him into the dory. Ebenezer rowed the trio to the beach and the rest of the journey was comparatively easy.

The shanty had three rooms, one of which was given up to the patient, one used as a living room, and, in the third, Capen and the minister were to sleep. Mattresses were procured, kind-hearted townspeople donated cast-off tables and chairs, and the building was made as comfortable as it could be, under the circumstances. Sign boards, warning strangers to keep away, were erected, and in addition to them, the Trumet selectmen ordered ropes stretched across the lane on both sides of the shanty. But ropes and signs were superfluous. Trumet in general was in a blue funk and had no desire to approach within a mile of the locality. Even the driver

Remember if you get 1500 lbs. of rump coal and 500 lbs. of slack for a ton you have really only 1500 lbs. of coal as the slack is worthless to you. We would not let you have slack if you wanted it as we need it for our boilers, so be sure and get our prices before you buy.

MICHIGAN PRIMARY CAMPAIGN CLOSED

Detroit, Mich., Aug. 24.—The campaign preceding the Michigan primaries closed today with many political rallies in all parts of the State. On Tuesday next all parties are to engage in State-wide primaries for the selection of candidates for governor and lieutenant governor, one United States Senator, representatives in Congress, members of the legislature and city and county officers. The selection of candidates for State officers, excepting governor, will be made in State conventions to be held later.

The campaign, on the whole, has been of rather a luke-warm variety. The Republicans, who have held almost undisturbed control of the State for years, lost much of their ginger in the bitter factional fight between the Taft and Roosevelt adherents last spring. The fight left the party and its leaders more or less bewildered. Governor Chas. M. Osborn, one of the early and ardent Roosevelt supporters, has apparently been left to flock by himself. Many others who in the past have been numbered among the republican leaders to Michigan have taken no part in the present campaign.

The democrats have found some encouragement in the factional strife of the enemy and are displaying more activity than in former years. But the democrats, like the old-line republicans, are bothered over the appearance of the third party in the field. The National Progressives will have a place on the primary ballot and will make nominations for all of the important places to be filled at the November election.

The republican candidates for the gubernatorial nomination are Fred C. Martindale of Detroit, the present secretary of state, and Amos Musselman of Grand Rapids. Two years ago Musselman was Governor Osborn's chief opponent for the republican nomination. Shortly before the third party convention this year he announced himself a strong progressive, but later he issued a statement declaring that he was not a third party man and that he would prefer defeat with the republican party in his race for the governorship than to cast his lot with the new party.

The democratic choice for the governorship is Woodbridge N. Ferris, who is the head of an educational institution at Big Rapids. Prof. Ferris has long been prominent in democratic politics in Michigan. Twenty years ago he was a candidate for congress and in 1904 he was an unsuccessful candidate for governor.

The National Progressive candidate for governor is L. Whitney Watkins of Jackson, who is now a republican member of the state senate. J. D. LeLand, a banker of Corunna, is to head the state ticket of the prohibitionists.

United States Senator William Alden Smith, whose term will expire next March, has no opposition in the republican ranks for re-election. The democratic aspirants for the toga are former Congressman Alfred Lucking of Detroit and George P. Hummer of Grand Rapids. T. H. Joslyn of Adrian is the third party choice for the senatorship, and W. A. Taylor of Battle Creek is the choice of the prohibitionists.

OIL WELL ABOUT 1000 FT. DEEP

Work on the oil well has been making reasonably fair progress of late, and the well is now about 1,000 feet in depth. Unless delayed in some unexpected manner, it is confidently expected to reach the first stratum of oil and gas next week. Just now the drillers are shutting off some of the surplus water that has been impeding progress to some extent.

STRAY TOPICS FROM LITTLE OLD NEW YORK

New York, August 24.—The recent completion of the first half of Unit No. 2 of the Consolidated Gas Company's plant at Astoria, L. I., marks another milestone in providing for New York the largest single gas plant in use anywhere in the world, as well as the most economically producing plant owing to its very magnitude of operations. The first unit completed produces 20,000,000 cubic feet of gas daily, and the half of Unit No. 2 which has just been completed has a capacity of 20,000,000 more. The entire plant, when finished will be larger by far than the giant gas plant of London, which supplies the metropolis of the world. The total cost of the nine units complete will be about \$100,000,000.

Enterprise, in an undertaker, is apt to take some gruesome form. When the five Italians who had been convicted of the murder of Mrs. Mary Ball near Croton Lake Westchester County, were electrocuted at the Sing Sing prison recently an Italian undertaker on Mulberry street, more enterprising than his competitors, conceived of a rather novel plan of advertising his establishment. Armed with a petition, signed by the friends and relative of the executed men he went to Sing Sing and obtained permission to have the five bodies taken to his undertaking establishment and to be prepared for burial. After the bodies had been embalmed, they were laid out in a row in the morgue room of the establishment. Some kind of an altar was improvised in a corner of the room, under an arch decorated with painted angels and a picture of the Virgin, candelabra with burning wax candles were placed in front of the altar and around the biers and then the public, that means the swarming multitude living in the Mulberry street district, was invited to view the bodies. Conspicuously placed on a table near the bodies was a large platter, with a sign soliciting contributions for defraying the cost of shipping and embalming the bodies and having them buried in proper style. For a whole week the bodies were on exhibition and in that time thousands of men, women and children, driven by their morbid curiosity, viewed the gruesome spectacle and filled the platter to overflowing many a time.

Nothing is easier than to get into an insane asylum, but it is a mighty difficult matter to get out of one, even if one is not at all insane and was taken to the institution by mistake. A few days ago a resident of Newark, N. J., went to the Essex County Hospital for the insane, after he had been informed that his mother, who had been at the Newark City Hospital, had been transferred to the insane asylum. He asked for his mother and was shown to a room. Great was his surprise when he found that the woman, who was in bed and apparently very ill, was not his mother. An investigation was made which disclosed the startling fact that by the mistake of a stupid or careless interne the wrong woman had been sent to the asylum. The patient had repeatedly protested that she was not the woman mentioned in the transfer papers and was not insane.

The visitors to Luna Park, Coney Island, were treated to a sensational spectacle the other evening, which was not included in the regular program. W. H. Hill, who nightly entertains the crowds by doing a clever wire-walking act on a wire which is stretched from the main entrance over the bandstand and the lagoon to the big tower. He had almost completed his act the other evening and was on his way back to the tower, when the violent shaking of the wire almost made him lose his balance. Looking up toward the tower he was startled by the appearance of a big baboon, who, skillfully balancing himself on the wire came toward him on all fours, occasionally stopping in his progress to give the wire a vicious shaking. Things began to look black for the human performer, as he could not dodge the ape on the wire and could not reach any point of safety. The spectators began to realize that there was something wrong and that the wire-walker was in danger. Suddenly from the tower a rope coil shot out toward the baboon, but fell short. It was drawn in and at the second attempt the noose fell over the head of the ape and the resisting animal was pulled into the tower, giving Hill

The property of the Equitable Life Assurance Society, which comprises whole block bounded by Broadway, Pine, Nassau and Cedar streets, and upon which stood the Equitable building destroyed by fire last spring, has been sold to a corporation headed by Gen. Coleman Du Pont of Wilmington, Del., the powder manufacturer, for about \$14,000,000. The purchasing company intends to erect upon the site, which is right in the heart of the financial district, a gigantic office building, thirty-six stories in height and planned to be the largest building of its kind in the world.

AUTOGRAPH TELLS A TALE

Character of the Kaiser Revealed to Expert by Close Analysis of His Signature.

There is always a certain amount of interest attached to the deductions drawn by graphologists from the signatures of eminent men. Here, for example, is an illuminating description of the kaiser's autograph, supplied by an eminent Berlin graphologist: "To begin with, there is a crocheted, a sign of pertinacity, followed by a vertical dash, showing audacity, energy, regardless of any obstacle. Then there is an acute angle, a sign of firmness and aggressiveness. The first stroke of the 'W' indicates a feeling of superiority over the rest of the universe. The termination of the imperial 'W' suggests that the sovereign sometimes finds himself struggling with the multitude of his thoughts, or the power of his instincts.

"The other letters forming the signature show similar characteristics," the graphologist proceeds. "The final 'm' is indicative of great diplomacy, which to the analyst suggests subtlety. The letter also suggests the impossibility of the suppression of the 'ego.' The flourish which terminates the imperial autograph shows a suppleness of spirit, a desire to be loved, also self-esteem.

"The two terminating points indicate defiance and generally the characteristics are those of an extraordinary imagination."
